

The Greek Community of Toronto is committed to being an all inclusive resource for every Greek family in the GTA. As part of that commitment we now offer a complete funeral services program that will accommodate the traditional Greek funeral requirements at the most economical prices available in the industry.

We've partnered with Basic Funerals and Cremation Choices, a division of the Park Lawn Corporation, and the most forward thinking company in funeral services today. With them, we have created a service that gives you far better service for less money than the traditional, neighborhood funeral provider.

Why Pre Plan Your Funeral?

Pre paying for your funeral is one of the most responsible things you can do for 2 reasons:

- It removes the financial burden from your family of having to come up with the funeral funds after you pass away when they are grief stricken.
- It lets your family know exactly what your funeral wishes were so they don't find themselves guessing.

We are now able to facilitate the prearrangement and prepayment of funerals here at the Greek Community of Toronto.

Already Have A Prearrangement?

Good for you for taking care of those details in advance. Now, if you want to transfer your prearrangement over to our services you can, and your estate will receive the excess funds at the time of your passing. You can get the exact funeral you want and save money doing it.
